

# Push, pull, or both?

## Grade 2 Science Worksheet

A push is a force that moves something farther away.  
A pull is a force that moves things closer.  
Sometimes we pull things and sometimes we push them.  
Sometimes we do both!

Write each activity in the Venn diagram.

walk a dog

mow the lawn

yo-yo

get some tape

tug of war

ride a bike

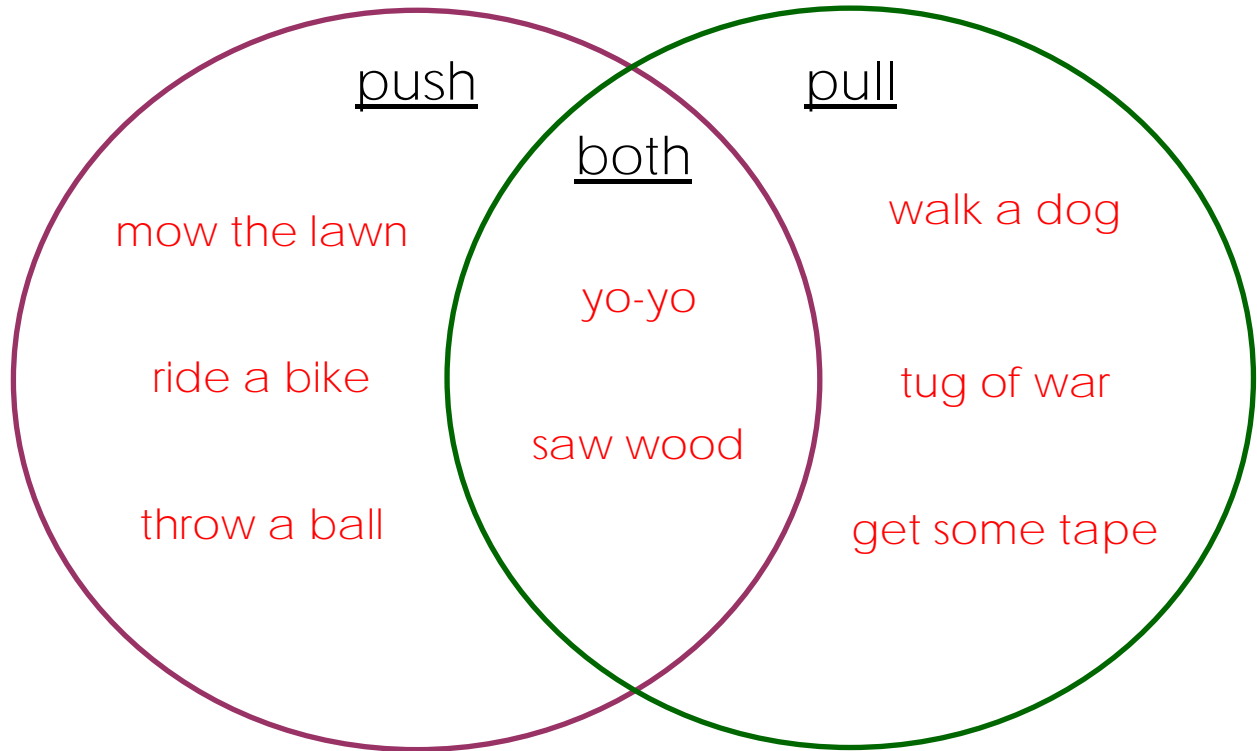

throw a ball

saw wood

# Answers

A collection of illustrations for each activity, arranged in a grid-like fashion within a blue rounded rectangle:

- walk a dog:
- mow the lawn:
- yo-yo:
- get some tape:
- tug of war:
- ride a bike:
- throw a ball:
- saw wood:
